| Each Additional DVD | \$10 | \$10 | \$10 |
| Shipping/Handling*** | \$10 | \$10 | Included |

*If you do not own the music you want included in your DVD Slideshow, Young at Heart Design Services will purchase it for you at a rate of \$2 per song.

**Sound effects – applause, laughter, blowing out candles - are fun and inexpensive additions to a basic DVD with music.

***USPS Priority Shipping with Delivery Confirmation and Insurance. Express or Overnight service will incur additional charges.

Should your project require more than 100 photos, please request a quote. Your Young at Heart DVD will play on nearly all standard DVD players manufactured since 2000, and also will play on many computers. Young at Heart will return all of your original photos with your completed DVD. Should your DVD be lost or damaged, you may order a replacement copy up to six months following delivery of your initial order.

No doubt you have a few questions about ordering a Young at Heart DVD Slideshow project. I'll try to answer a few of them here.

Purpose

Preserving your photos in the form of a DVD slideshow ensures that your memories will remain archived for generations to come. Movement, sound effects and music add to the enjoyment of watching the slideshow.

Your Young at Heart DVD Slideshow is a wonderful way to share and remember:

- Weddings
- Vacations
- Banquets
- Recitals
- Reunions
- Birthdays
- Anniversaries
- Graduations
- Memorials

Honor a retiring employee with a slideshow of his or her career. Relive a championship sports season at the awards banquet. Create a history of the bride and groom to show at the rehearsal dinner. A DVD slideshow makes a thoughtful gift, and gift certificates also are available.

DVD slideshows also can be used to showcase commercial property, tourist attractions and product lines.

Photos

You may provide paper, negative or digital photos. Scanning charges at the rate of 25 cents per photo will be incurred if your photos are not digitally supplied.

Scanned photos should be saved in .jpg or .tif format, at a resolution of 300 dpi. You may also include paper memorabilia or scanned images of them – marriage certificates, wedding invitations, discharge papers, diplomas, etc. – if they will help tell your story.

You will need to number your photos in the order in which you wish them to appear in your slideshow. Use a soft-leaded #2 pencil to lightly mark the back of paper photos. Your digital photos should be sequentially numbered. Should you have a mixture of the two formats, be sure the numbering flows in the order you wish the two to be combined.

Music

You must own an original copy of your music choice(s) and provide it at the same time you submit your photos. If you do not own your music, Young at Heart will purchase the song(s) for you. As long as you do not sell your DVD production, it is legal to include original recordings in your slideshow.

Sound Effects

Blowing out candles, applause, laughter – lifelike sounds like these and more may be added to your slideshow as appropriate. A Halloween production benefits from the addition of spooky sounds, while jungle effects might be fun to add to a tropical vacation memory. A wide variety of sound effects is available or can be created. Be sure to ask!

Title Slides

You can introduce your DVD slideshow with a text slide. Usually the text is placed over a black background, but you may also choose to place it over a photograph. You may also include a Title Slide at the end of your project.

Additional slides can be interspersed with photos to add more detail to your story. For instance, you may want to include a slide with a favorite quotation, or fun facts about the subject.

Playback

Most DVD players manufactured since the year 2000 will play your Young at Heart DVD Slideshow. You may also be able to view it on your computer.

Cover

You may choose one of your photos for the cover of your DVD case. The title of your slideshow, as well as the date, will be included on your custom-designed cover.

Photo Restoration

There is a limit as to how much restoration can be done. Wrinkles and fading can be improved, while blurred photos and too-small subjects cannot. Young at Heart will digitally eliminate “red eye,” and perform minor color and lighting corrections at no charge. Extensive restoration will incur additional charges. Your photos will be cropped or edited to eliminate distracting backgrounds, if you like. Your original photos will not be harmed.

Additional Copies

Young at Heart Design Services will keep a copy of your slideshow data for six months, and you may order additional or replacement copies (should you damage or lose your original) during that time. Your slideshow data will be destroyed after six months.

Ready to order?

Please call (304) 466-3000 and ask for Debbi at Young at Heart Design Services for more information, to answer additional questions not covered here and to place your order. I'm eager to help you preserve, enhance, protect and share your memories.
